

Range waste water

Anti water hammer

ARAA

3000 to 35000 L

The **Hydrochoc waste water** surge vessel with automatic air regulation operates not only as a surge wessel but also as a balancing chimney, without compressor or bladder. Designed for heavily charged or fibrous liquids, it is perfectly adapted to protect flat pipelines often encountered in waste water systems.

MANUFACTURING TO CODAP

PAINT

Internal. Epoxy paint without solvent, colour white, thickness 100 microns.

External. Polyurethane lacquer, colour yellow and anti corrosion polyurethane finishing, thickness 50 microns.

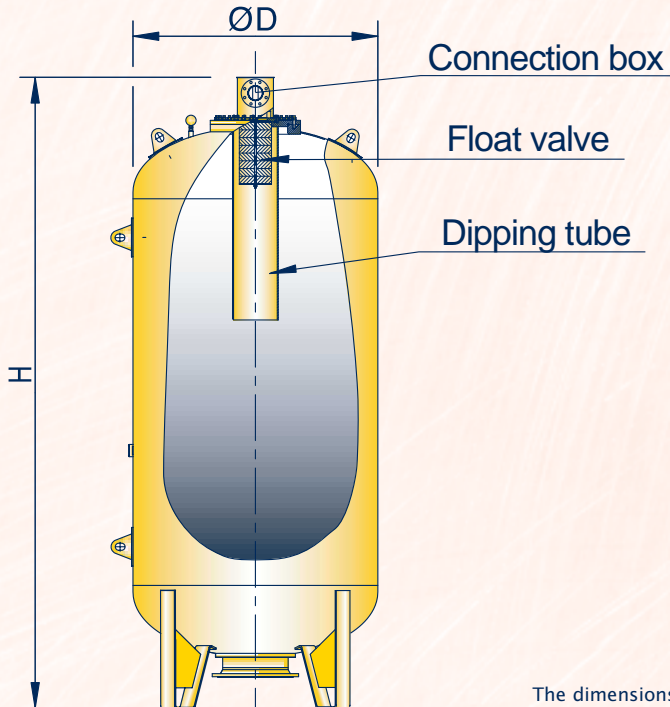

WARRANTY

Not including parts subject to wear and subject to use under normal conditions.

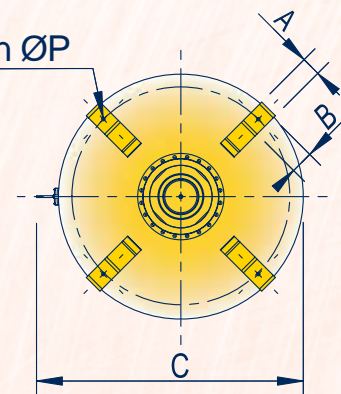

PACKING

Craddles for the vessels.

4 holes Ø26 on ØP
